## **PRINTING INSTRUCTIONS:**

*Print out the first page of this document onto thick/luxe/cardstock paper (regular printer paper is fine, too; you can always try “backing” it onto thicker paper once it’s printed by trimming both sheets to size and using a glue stick or double-stick tape to mount them together). Two conversation starter sheets / place settings are included with each print; you can print as many copies as you’ll need.*

*I recommend using a paper cutter (rather than scissors) to cut along the dotted line and separate the settings onto two pages, then cut again along the top, bottoms, and left/right sides of each to turn them into long rectangles.*

*I’ve left space on the top and bottom (i.e. no dotted lines) in case you want to cut them a bit “longer” and use that extra space to write down the names of your guests or family members, since these can also double as place cards.*

*Enjoy!*
