

studded grass cloth table project

instructions

2. Cut a piece of grass cloth wallpaper just large enough to cover the tabletop and the side edge. (To fit our table, we cut the wallpaper to 48 inches by 28½ inches.)

Notch a 45° angle into each corner, as shown below.

3. Using wallpaper paste, adhere the grass cloth wallpaper to the tabletop and the sides, folding the wallpaper along the dotted lines in this order: pink, blue, green.

Let dry.
