

new year's eve glam - party hats

1. Print the party hat template (this page) onto 11 x 17 cardstock and cut where indicated. You can fit 2 party hats to a sheet- print as many polkadot sheets (page 2) onto 11 x 17 cardstock as needed.
2. Trace the template onto the back side of the polkadot sheets (alternately, you can use any patterned paper you'd like) and cut out.
3. Roll until the two sides meet, overlapping slightly. Staple the sides together at the bottom to hold, secure at overlap with a thin strip of hot glue. This will be the back of the hat.
4. Facing the hat forward, use a hole punch to punch one hole on each side of the hat. For the ribbon tie, cut ribbon to desired length (we used about 44") and string through both holes.
5. Embellish your assembled hat- we used glitter, rhinestones, tissue paper fringe, gold twine, and tissue paper pom toppers.
