

Supplies:

- Iron on tshirt transfer sheet (for a light colored shirt)
- Inkjet printer
- Iron and ironing board
- Scissors
- Light colored shirt (gray/white/light blue)

Print:

- Open PDF download from HGTV.com and print on regular white paper first to check size and placement (graphic is already mirrored)
- Load tshirt transfer paper into printer so that printing will be on correct side
- Print, and allow to dry completely

Iron on:

- Set your iron to "cotton" temperature (no steam!)
- Trim closely around the outside edge of your image
- Place transfer paper on the tshirt, image side down
- Press your iron onto the transfer paper for 20-25 seconds, covering the entire area
- Let the tshirt cool completely, then peel off the "release paper" backing
